NOTICE

It is informed that library has purchased Turnitin plagiarism online software for academic as well as research development of the college. Library has created faculty members as Instructor so they can check students' work for improper citation or potential plagiarism by comparing it against the world's most accurate, continuously updated, text comparison database in a fraction of the time compared to the time required to scan a few suspects' papers using a search engine. This software service checks for potential unoriginal content by comparing submitted papers to several databases using a proprietary algorithm. It scans its own databases, and also has licensing agreements with large academic proprietary databases. Turnitin provides instructors with the tools to engage students in the writing process, provide personalized feedback, and assess student progress over time. Therefore, it is requested all the faculty members of the college to check out their email IDs for further action please.
